

## Key Specifications

Specification	Unit	
Operating Weight	KG	5,483
Dipper Length	MM	1,820
Maximum Dig Depth	MM	4,077
Machine Width	MM	4,456
Machine Height	MM	1,950
Engine - Perkins	KW	36
	HP	47.9
Hydraulic Flow – High Flow	L/Min	90
Hydraulic Flow – Low Flow	L/Min	40

## Reasons to Rent

### Engine Solution

The JCB mini 57C-1 boast a bespoke 36kW Perkins engine, providing optimum performance and efficiency by producing high torque at low revs, saving fuel without compromising performance.

### Serviceability

A wide opening steel bonnet, external fuel indicator, removable cab floor and ground level maintenance access ensures easy serviceability.

### Ease of Use

The 57C-1 has the very latest digital screen technology in the operating environment. With a simple user interface, customisable home screen and specific diagnostic information, you are sure to find it a helping hand at work.

### Versatility

Factory fit options including a rototilt-ready installation, our fully CE marked hydraulic quickhitch or the JCB range of Eco buckets, designed with fuel saving in mind, for increased productivity and versatility.

### Utilisation

Downtime is minimised due to graphite impregnated bronze bushes which allow best-in-class greasing intervals of 500hrs and 100% steel bodywork for increasing durability, making it easier to repair or replace.
