

## Key Specifications

Specification	Unit	
Operating Weight	KG	6,601
Dipper Length	MM	1,900
Maximum Dig Depth	MM	4,011
Machine Width	MM	4,456
Machine Height	MM	2,000
Engine - Perkins	KW	35.1
	HP	47
Hydraulic Flow – High Flow	L/Min	90
Hydraulic Flow – Low Flow	L/Min	25

## Reasons to Rent

### Engine Solution

The JCB mini 65R-1 boast a bespoke 365.1W Perkins engine, providing optimum performance and efficiency by producing high torque at low revs, saving fuel without compromising performance.

### Serviceability

A wide opening steel bonnet, external fuel indicator, removable cab floor and ground level maintenance access ensures easy serviceability.

### Ease of Use

Spacious and ergonomic cab with multiple storage options, cab heater with 9 vents and a state of the art LCD display providing all necessary information make the 65R-1 an easy and comfortable machine.

### Versatility

High and low flow hydraulic flow rates available suitable for a full range of tailored attachments for these compact excavators, adding versatility and flexibility to the machines skillset.

### Utilisation

Downtime is minimised due to graphite impregnated bronze bushes which allow best-in-class greasing intervals of 500hrs and 100% steel bodywork for increasing durability, making it easier to repair or replace.
